The Commission for Academic Accreditation of the MOHESR licenses AUE to award degrees and accredits all programs offered by the University. The American University in the Emirates has been granted re-licensure by the Commission for Academic Accreditation effective 26th September 2012.

III. Brief History

The AUE has grown into a highly regarded university in a short span of time. The University has established itself as a premier institution offering quality accredited academic programs. The Vision of AUE is to prepare exemplary leaders, scholars and practitioners in a range of disciplinary fields so that the young graduates, from the United Arab Emirates and abroad, are enabled to become lifelong learners in their chosen professional field.

The ambitious goals that were drawn up in 2007 in pursuit of a quality education with measurable outcomes have added several dimensions to its prior structure. At present, the University has six Colleges: College of Business Administration (COBA), College of Computer Information Technology (CCIT), College of Education (CEDU), College of Fine Arts and Design (CFAD), College of Media and Mass Communication (CMMC), and College of Law (CLAW). The AUE also includes several institutes and centers, such as Language Learning Institute, Center for Educational Technology, Guidance and Counseling Center, Professional Training Center and Technology Incubation Center.

The Founders of AUE believe that the academic freedom is an essential principle underlying the achievement of the University's goals. Academic freedom is based upon the creation of an institutional environment that offers unrestricted exchanging of ideas and information, and the promotion of liberal, educated discourse on all academic matters. Academic freedom allows faculty members the autonomy to conduct their teaching and research duties and commitments, and pursue their responsibilities. Faculty members are entitled to complete freedom in responsibly pursuing their duties in teaching, preparing courses material, discussions, publications, and evaluating students' work, free from internal or external restraints that would restrict their academic endeavors.

The University has committed itself to develop and sustain its faculty members in a long-term initiative, which encourages faculty development and excellent performance. This provides a basis on which faculty members can engage their students in a best-practice teaching and learning environment which is conducive to enhanced

international understanding allowing students to meet the requirements of an ever-challenging world. The technology of the current millennium requires that knowledge is supplemented by institutional and individual efforts to encourage international peace and stability, and greater human understanding, using tools such as negotiation, partnerships and agreements.

To ensure that an environment of trust and confidence is prevailing, the AUE now has a well-educated faculty, committed to student teaching and learning, state-of-art facilities, and accredited university partners, resulting in an ever-growing number of students. This continuing trend reflects the cultural richness of the society, the growing knowledge of the people, the applied learning of the population, and the use of new technologies that enhance the quality of life.

In meeting the above requirements, all universities and colleges seek to offer accredited undergraduate and graduate programs. The American University in the Emirates focuses on contemporary issues and imparts knowledge to its students effectively, so as to encourage continuing personal growth, meet employment market expectations, and allow its graduates to rise to the challenges of the 21st Century.

The AUE has emerged as a national leader in professional education. Stakes are shared by the students and the teacher-scholar community as knowledge-takers and knowledge-imparters respectively. It is noteworthy that the majority of the programs in each department are planned in a comprehensive manner to allow practical exposure. The AUE remains committed to excellence in teaching, learning, research, community service, and to the implementation of its Vision and Mission.

Being a standard American educational institution, AUE never fails to preserve the Culture and values of the United Arab for students seeking to penetrate the market of professionalism, AUE is one of the best choices. Coursework in the proposed Colleges of AUE is designed to prepare graduates to foster innovation, collaborate effectively, and

Over a period of only 8 years the library managed to develop a core collection of 11,960 volumes. As the language of instruction at the AUE is English, 7,588 of the books are in English, while the rest are in Arabic and some other languages (when the book is of high academic quality and it is not translated in English). For the last five years (2010 – 2015) years the library holdings have been developed at a high and steady rate, and the number of the new books, acquired by purchasing or donations, for that period amounts to 7,500, so the average yearly collection growth is 1,500 new volumes. With the introduction of the electronic format as a valid format for scholarly communication, the library started to acquire full-text electronic journals, aggregated in different vendors' databases: EBSCO Host on-line containing 11 subject databases; ProQuest – a database containing full-text e-journals in all subject areas; JSTOR – containing 4 subject collections of the full run of 400 leading journal titles in humanities and

social sciences; Ebrary, a database for on-line E-books, Web of Science, and Encyclopedia Britannica.

However, student records can also be accessible through their Academic and Career Advisors.

AUE student records are confidential and therefore only accessible to specific AUE Personnel, Units, Offices, Governmental entities, Accredited/audit agencies reviewing AUE programs.

Two main AUE departments hold records of all students. The Admission and Registration Department maintains information pertaining to students’ enrollments (registration) and their official academic records (admissions application, test scores, letters of recommendation, copy of academic record, notes (if any) made by academic counselors, information on honors awarded and/or academic discipline imposed and similar items). The Financial Affairs Department also maintains information about charges assessed and payments made to students’ accounts.

- e- A filed documentation of students’ records relevant for advising is made available to the student’s Advisor who usually keeps the file. This file may also be accessible in the related Academic Department Office for other purposes. When the student changes Majors or Advisors within the same field, their records are handed over to the next Advisor
- f- Medical and counseling records will be delivered to any external medical or psychological entity or to AUE Staff upon a written request from the student.

will be reverted to "F" or to the grade as assigned by the Academic Instructor. Students may request for an extension for the Incomplete Exam by submitting a written extension request to the College Dean, which is subject to approval or rejection.

It is the student's responsibility to coordinate with their Academic Instructor to reschedule the date of the Incomplete Exam.

In this case, their Supervisor and Associate/College Dean need to submit an "IP Grade Form" to the Registrar Office during the grade publishing period to record the "IP" grade on the student's transcript.

Students are expected to finish the course requirements of the Internship/Capstone before the deadline agreed with the Supervisor and Registrar, otherwise, the "IP" grade will revert to "F".

It is the student's responsibility to coordinate with their Supervisor to accomplish the Internship/Capstone requirements and meet the deadline.

Pass/Fail grade

When students obtain a Pass/Fail grade, a "P" grade is granted if they obtain a percentage equal to "C" or higher. This will be counted towards their credit but not their GPA. However, an "F" grade is equal to 0.0 points and the student is considered to have failed the course, which affects their GPA.

In this case, the student will not receive any additional or supplementary items from the University for the Graduation Ceremony (gowns, caps and yearbook) and will not be allowed to participate in another graduation ceremony of their degree.

Degree Audit

Prior to announcing the final list of students who will participate in the Graduation Ceremony, the appropriate college academic will conduct a preliminary degree check and maintain a checklist of degree requirements and then forward the application to the Registrar's Office. The Registrar will perform a degree check of their own and notify the student of whether they are on track to graduate. The degree audit is a reliable process, hence the degree requirements are reviewed on a regular basis.
