AUE

PROVOST

Dear graduates,

The American University in the Emirates is proud of your dedication, hard work, and academic achievements: Congratulations!

Several significant and disruptive regional and global events marked your time at AUE, especially the worldwide spread of the COVID19- virus in the winter and spring of 2020. This public health crisis profoundly affected UAE universities, which shifted to emergency remote teaching in March 2020. The unexpected turn to distance learning was many students' first experience with online education. This abrupt change in educational delivery transformed the student experience for classes, capstone and thesis preparation, and internships. Student support services like advising, counseling, and registration also become virtual services.

I am humbled by the incredible resilience shown by AUE students, faculty, and staff during this crisis to keep the University running uninterruptedly, with emergency online operations continuing through the Academic Year -2020 2021. You worked hard to adapt to this new form of course delivery and stay focused on your education despite the pandemic's uncertainties and disruptions. AUE's spirit and teamwork exemplified its slogan, "nothing is impossible." In recognizing your achievements, I acknowledge the pandemic's toll on you and your families. The most apparent consequences were illnesses and deaths from COVID19- infections. However, there were many other consequences too. For instance, the pandemic's lockdowns and dislocations also contributed to mental health problems and the hit to the global economy caused job losses, affecting people's finances and work visas. International travel was suspended or curtailed and uncertainty reigned supreme. Nonetheless, against this challenging backdrop you continued your education and achieved your goals. All of us at AUE honor and celebrate the special 'pandemic' classes of 2020 ,2021, and 2022.

In the Academic Year 2021-2022, Dubai began to lift emergency measures, and AUE transitioned toward resuming regular on-campus operations. Against this backdrop, Dubai hosted Expo 2020 from October 2021 to March 2022 and AUE students returned joyfully to public spaces to visit the Expo for the purpose of classes. AUE was blessed to have this outstanding global educational event in its backyard.

The Expo also provided a fabulous outdoor venue for AUE's graduation ceremony on February 22, 2022.

The pandemic had prevented the University from hosting graduation ceremonies in the previous two years,

so the University was determined to deliver an unforgettable 2022 graduation ceremony and celebratory party. It did not disappoint!

The noun 'graduate' comes from the Latin word 'gradus', which refers to the step on a stair or ladder. Graduation is a giant step up life's ladder, moving you closer to your ultimate goals. AUE is honored to have helped you climb upward and remains invested in your future success. Yet, life's ladder has many more rungs. AUE's Mission is to prepare "students as global citizens for future career aspirations and lifelong learning through quality teaching, research, and service opportunities." AUE trained you to have the skills and habits necessary to flourish in your chosen careers, and to be informed and responsible global citizens. Your education does not end with your AUE graduation; indeed, your lifelong learning has just begun.

You will always be a part of the American University in the Emirates family, so please continue to network with the University's alumni, students, faculty members, administrators, staff members, and other stakeholders. AUE looks forward to celebrating your future accomplishments.

MESSAGE FROM VICE PRESIDENT FOR ACADEMIC AFFAIRS

Dear Graduates,

My heartfelt congratulations to all of you on receiving your hard-earned degrees in the midst of a global pandemic! We inculcated in you our strong belief that "Nothing is Impossible", and you have overcome the unexpected and persevered. Despite the shifts in your academic and personal lives, you all have made it!

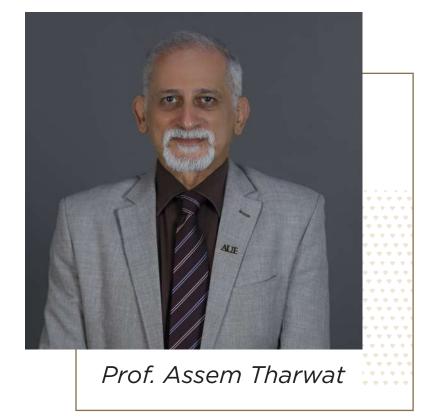

You are graduating at a time when we all are celebrating the 50th year since the founding of the UAE—and a time that also coincides with Expo 2020 Dubai. Sheikh Mohammed has said that 2022 will be year of "distinction and precedence" in his new year poem and there is no question that this is indeed a very exciting moment to be alive. I am very optimistic that you will apply what you have learned at AUE to make significant contributions to the UAE's next 50 years for the betterment of your society and towards the creation of an even more profitable and sustainable nation.

I would like to thank all the faculty members for their untiring efforts in providing you with the best available support to realize your dreams and meet the university goal of delivering an excellent education.

On behalf of the Division of Academic Affairs, I welcome you all to the Commencement Ceremony and strongly believe that you will always feel proud and passionate to serve your alma mater, the American University in the Emirates.

MESSAGE FROM VICE PRESIDENT FOR RESEARCH

The American University in the Emirates (AUE) vision and mission is to encourage research that has practical application for both economy and society. In this regard, examples of the research that our students and faculty members have published recently, can be browse online. In terms of research breadth and depth, the work is a clear sign of AUE's ambition to become a research-lead organization in the UAE and internationally.

One of the strategic goals the university is to develop knowledge, based on basic and applied research in various fields of study, which is in line with the Vision of HH Sheikh Mohammed bin Rashid Al Maktoum to build an economy that is diversified, global, healthy, and happy.

The ability to carry out research and publish the outcomes requires critical reading, analysis, imagination, and problem-solving skills. One of the reasons the institution has set up the Research Division at AUE, is to provide new focus, resources in the area of Business, Diplomacy, Security, Design, Information Security, Intelligence, Information Technology, Law, communication, Education and other emerging fields will create new opportunities for our students, and will provide advanced solutions to local challenges, in the very near future.

MESSAGE FROM VICE PRESIDENT FOR ADMINISTRATIVE AND FINANCIAL AFFAIRS

Dear Graduates,

As students, you filled our campus with energy, passion, and creativity that knew no bounds. Today as graduates you fill our hearts with joy, admiration, and pride at your incredible achievements.

Success is sweetest when it comes after years of perseverance and dedication. The confidence you feel as graduates today is a testament to the many ways you pushed through the fears and inhibitions you experienced as freshmen.

Pursue the world with an endless passion much like you did when you were students. Your passion has not only brought you to this day; it has inspired all of us to keep pushing towards excellence. The joy you feel today is the inspiration that fuels AUE to keep pushing forward.

In your time at AUE, you were told that "Nothing is Impossible". If you ever had a doubt about the wisdom of that motto, just look at the amazing work you have put in to achieve your dreams. Now, we simply encourage you to keep dreaming and keep achieving, for you are unstoppable.

Regardless of where your destiny takes you, always remember that the very same hallways you walked as young students will always await the return of your footsteps. You will always have a place at AUE, for you are its spirit.

Every one of you has in some way added to the beautiful mosaic that is the AUE story. I want to thank you for all the wonderful ways your presence has made AUE an incredible place and I am sure you will carry this phenomenal energy with you, wherever your dreams may take you.

Congratulations class of 2020/2021/2022

This Yearbook celebrates the Expo Commencement ceremony of graduating students, signaling the end of their long hard journey and acting as a step into the next phase of their lives.

It is expected that 1500 students will walk across the stage in the commencement ceremony this year. During such ceremonies, the University community comes together to recognize the successful efforts made by each graduating student, as well as the faculty and staff members who supported and helped sustain their efforts.

This is a time for both retrospection and anticipation. We take this opportunity to commemorate the dynamic growth of the American University in the Emirates, since its founding in 2006, and to express gratitude to all students, alumni, faculty and staff members who have contributed so much to the University's development, during the past ten years.

At the same time, we salute each graduating student, who is now engaged in a new beginning, as you move forward with confidence, assurance and poise into new professional and career commitments, which all build upon your achievements in learning, during your studies at AUE

MESSAGE FROM COLLEGE OF SECURITY AND GLOBAL STUDIES(CSGS)

Dear Graduating Class of 2022,

You have earned your wings, and it's time to navigate the different pathways of life, with all the honor, distinction, and pride that only success can give you. You have acquired the knowledge, self-esteem and leadership skills that will carry you into a better life, but remember that this also comes with a special responsibility to share these qualities with others: your families, your communities, your nation, and the world.

First and foremost, though, enjoy your success today. Enjoy it like time has stopped! Don't look back, don't look ahead; live in the moment and let the feeling of success sink in. It's important! Celebrate it, indulge in it. You have earned that unique sentiment of achievement and fulfillment and you have us the AUE administrators and professors, and your families – as witnesses and certifiers. You deserve the recognition.

So be happy, be proud. Tomorrow is another day. Don't fear it, do not fret about it; look it in the eye with all your knowledge, confidence and pride. It will know that you have earned your success, and your success will carry you over into a better future and a better life. If ever there is a moment of doubt, recall us. AUE will be there for you!

Congratulations!

Believe in yourself, your education, and the values you take with you from AUE.

MESSAGE FROM COLLEGE OF DESIGN(CDES)

As you walk down the aisle and graduate from the College of Design at the American University in the Emirates, I want you to remember a few thoughts from our conversations.

1. Design is not a job and not a career; it isn't even a profession. Design is a lifestyle choice that empowers you to participate in the creative process of your life.

2. As a designer, remember you are a complex individual who conceptualizes the way things work, how things come together, and how they can potentially re-define and re-position life's elements.

3. You are part of a very big universe and being small is an extremely powerful tool. As the saying goes "Elephants cannot get into doors". But by being hungry and humble, you will be able to get into places where people with big egos never will.

4. You are unique and one-of-a-kind—no one is like you. You are an extremely rare and precious soul that has so much to offer the world. By all means, remember this at least once a day.

5. Perfection is a very bad word. Please don't aspire to it; don't aim for it; don't even think about it. It is candy coated with too much sugar. Perfection. Is. Failure.

6. Love as much as you can. Love with all that you can. Love your family, love your friends, love the world around you. Love to help your fellow human...it makes miracles happen in the world. Trust me on this one.

7. Please apply patience and compassion in all that you do. Try to be a little more so each day.

8.Don't simply listen to rules but rather question them. However, also please remember that some rules are helpful to living a balanced life.

9. You are a human who makes mistakes. Please remember you must make mistakes every day or you are not moving forward. Make your mistakes as quickly as possible, learn from them, grow from them, and move on.

Congratulations once more!

MESSAGE FROM COLLEGE OF LAW(CLAW)

Dear students, Graduates of the Faculty of Law at the American University in the Emirates,

Graduation is the successful completion of one stage of studying, and it is a great joy, happiness, and the beginning of a new stage. It is also one of the most beautiful days that a person can experience in their lives. There is nothing in this life that compares to the happiness of success and your presence here today is merely the crowning moment for all your spent efforts and all your hard work over the years. Certainly, the student does not reach the gate of success without passing through the stations of fatigue and, as the saying goes, the strong-willed person is not detained for long at such stations.

Certainly, your graduation today will be one of the most vivid memories you carry with you, as well as something that will live forever in the memories of the faculty of the College of Law. Here you are today embarking on a new life, but it must be remembered that your efforts over the past years were not only for the sake of graduating, but also for the sake of this country that is dear to all of us, the United Arab Emirates. It is ultimately the UAE that needs your efforts and the dedication of its loyal offspring.

On this happy occasion, I am pleased to present to you, on both my own behalf and on behalf of the faculty members at the College of Law, our most sincere congratulations and blessings.

Congratulations to you on your success and I ask God to bless you and bestow success and flourishment upon you all.

MESSAGE FROM COLLEGE OF EDUCATION (CEDU)

Congratulations to the class of 2020/2021/2022 !

You are why this university exists, and we at AUE are so happy and proud to publicly recognize that you have acquired the knowledge and skills required to receive your diplomas.

The term 'graduate' comes from the Latin word 'gradus,' which means a step as you would find on stairs or ladders. As graduates, you are now taking a large step up the ladder of life, moving closer to goals and dreams that are still a few tantalizing rungs higher. We are proud to have offered our hands to help pull you upward, and we will forever be connected to you by that partnership. You will always be part of the AUE family, and we hope you will continue to network with the university's alumni, students, faculty members, administrators, and members of staff.

Higher education should put you on a trajectory for lifelong learning. In this time of rapid change, no university can now teach you everything you will need to know about a future we scarcely can envision. As you graduate from this institution, you must take your learning into your own hands. That is why we have tried to cultivate your curiosity about the evolving social, political, and economic world into which you are graduating, and we have helped you acquire the tools you need to make sense of and flourish in whatever new conditions you will confront.

Your education will have immense practical benefits for yourself in terms of higher pay, new job opportunities, and the enrichment in life that comes from enhanced appreciation of art, culture, music, and so on. Remember, though, that education should also be used for the common good. Therefore, do not live a selfish life. Use your talents not only to advance your career, but also to help other people and to improve your society and country.

The university's motto is, "Nothing is impossible." Now it is time for you to go forth and prove that. We look forward to witnessing and celebrating your future accomplishments!
