PROVOST

**Prof. William Cornwell**

Dear graduates,

Congratulations on reaching this remarkable milestone! Through your dedication and perseverance, you have earned your degree from the American University in the Emirates. We are proud of your achievements and delighted to welcome you to our distinguished group of alumni.

The past two years have been a period of renewal and growth for AUE, and you have been a significant part of this journey. The university achieved international accreditation from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), and the College of Business Administration was accredited by the Association to Advance Collegiate Schools of Business (AACSB). Additionally, the College of Design's programs were recognized as substantially equivalent to those accredited by the National Association of Schools of Art and Design (NASAD) in the United States. We also expanded our facilities with a beautiful new building for the College of Design and strengthened global partnerships to enhance your educational experience. AUE has never been stronger.

Your academic career was uniquely marked by the challenges of the COVID-19 pandemic. In these unprecedented circumstances, you demonstrated resilience and determination. By staying focused on academic distinction through lockdowns and distance learning, you embodied our motto, "Nothing is impossible."

As you graduate, you might feel a mix of excitement and apprehension about leaving the protective harbor of AUE to navigate life's vast and unpredictable seas. Remember, you will forever be a part of the AUE family. Our doors are always open to you. Engage with our alumni network, professors, and staff. Return to AUE to pursue further studies, acquire new skills, or contribute to our community as a guest speaker, advisory board member, internship supervisor, donor, or recruiter. As previous alumni have enhanced your educational experience, we encourage you to do the same for future students. Maintaining a lifelong bond with AUE benefits you and the university.

While your formal education may have concluded, your journey as a lifelong learner continues. AUE has equipped you with the tools, knowledge, and values for a lifetime of growth and achievement. Your time here has laid a strong foundation for your career and societal contributions. We eagerly look forward to your future accomplishments, confident in the enduring value of your AUE education.

With heartfelt congratulations and best wishes for your future,

Professor William Cornwell, Ph.D. Provost

Conversely, the absence of a student's name and honor from this list does not necessarily mean that person will not be awarded a degree with or without honors. Final certification of degrees and any academic distinction achieved will be made by the University Registrar after the completion of all degree requirements.

MESSAGE FROM  
**SECURITY AND GLOBAL  
STUDIES(CSGS)**

Dear Graduating Class of 2023,

You have earned your wings, and it's time to navigate the different pathways of life, with all the honor, distinction, and pride that only success can give you. You have acquired the knowledge, self-esteem and leadership skills that will carry you into a better life, but remember that this also comes with a special responsibility to share these qualities with others: your families, your communities, your nation, and the world.

First and foremost, though, enjoy your success today. Enjoy it like time has stopped! Don't look back, don't look ahead; live in the moment and let the feeling of success sink in. It's important! Celebrate it, indulge in it. You have earned that unique sentiment of achievement and fulfillment and you have us the AUE administrators and professors, and your families – as witnesses and certifiers. You deserve the recognition.

So be happy, be proud. Tomorrow is another day. Don't fear it, do not fret about it; look it in the eye with all your knowledge, confidence and pride. It will know that you have earned your success, and your success will carry you over into a better future and a better life. If ever there is a moment of doubt, recall us. AUE will be there for you!

Congratulations!

MESSAGE FROM  
**COLLEGE OF DESIGN  
(CDES)**

As you walk down the aisle and graduate from the College of Design at the American University in the Emirates, I want you to remember a few thoughts from our conversations.

1. Design is not a job and not a career; it isn't even a profession. Design is a lifestyle choice that empowers you to participate in the creative process of your life.
2. As a designer, remember you are a complex individual who conceptualizes the way things work, how things come together, and how they can potentially re-define and re-position life's elements.
3. You are part of a very big universe and being small is an extremely powerful tool. As the saying goes "Elephants cannot get into doors". But by being hungry and humble, you will be able to get into places where people with big egos never will.
4. You are unique and one-of-a-kind—no one is like you. You are an extremely rare and precious soul that has so much to offer the world. By all means, remember this at least once a day.
5. Perfection is a very bad word. Please don't aspire to it; don't aim for it; don't even think about it. It is candy coated with too much sugar. Perfection. Is. Failure.
6. Love as much as you can. Love with all that you can. Love your family, love your friends, love the world around you. Love to help your fellow human...it makes miracles happen in the world. Trust me on this one.
7. Please apply patience and compassion in all that you do. Try to be a little more so each day.
8. Don't simply listen to rules but rather question them. However, also please remember that some rules are helpful to living a balanced life.
9. You are a human who makes mistakes. Please remember you must make mistakes every day or you are not moving forward. Make your mistakes as quickly as possible, learn from them, grow from them, and move on.

Congratulations once more!

MESSAGE FROM  
**COLLEGE OF LAW  
(CLAW)**

Dear students, Graduates of the Faculty of Law at the American University in the Emirates,

Graduation is the successful completion of one stage of studying, and it is a great joy, happiness, and the beginning of a new stage. It is also one of the most beautiful days that a person can experience in their lives. There is nothing in this life that compares to the happiness of success and your presence here today is merely the crowning moment for all your spent efforts and all your hard work over the years. Certainly, the student does not reach the gate of success without passing through the stations of fatigue and, as the saying goes, the strong-willed person is not detained for long at such stations.

Certainly, your graduation today will be one of the most vivid memories you carry with you, as well as something that will live forever in the memories of the faculty of the College of Law. Here you are today embarking on a new life, but it must be remembered that your efforts over the past years were not only for the sake of graduating, but also for the sake of this country that is dear to all of us, the United Arab Emirates. It is ultimately the UAE that needs your efforts and the dedication of its loyal offspring.

On this happy occasion, I am pleased to present to you, on both my own behalf and on behalf of the faculty members at the College of Law, our most sincere congratulations and blessings.

Congratulations to you on your success and I ask God to bless you and bestow success and flourishing upon you all.
